Re: *Universal Service Generic Contested Case*
Docket No. 97-00888

Dear Mr. Waddell:

Enclosed are the original and thirteen copies of BellSouth Telecommunications, Inc.'s Request for Designation in the above-referenced matter. A copy has been provided to counsel of record.

Very truly yours,

Patricia Turner for Guy Hicks w/ permission

Guy M. Hicks

GMH/jem

Enclosure

**BEFORE THE TENNESSEE REGULATORY AUTHORITY
Nashville, Tennessee**

In Re: *Universal Service Generic Contested Case*

Docket No. 97-00888

**BELLSOUTH TELECOMMUNICATION, INC.'S
REQUEST FOR DESIGNATION**

Pursuant to the Tennessee Regulatory Authority's ("TRA") Order dated November 3, 1997 in Docket No. 97-00888 and Section 214 of the Telecommunications Act of 1996 ("1996 Act"), BellSouth Telecommunications, Inc. ("BellSouth") hereby requests that the TRA designate and certify that BellSouth is an Eligible Telecommunications Carrier in its designated service area for federal universal service support purposes. In order to maintain uninterrupted federal universal service support, BellSouth requests that this designation be granted prior to January 1, 1998. In support of this request, BellSouth hereby states:

1. BellSouth will provide the services and functions required by Section 254(c) of the 1996 Act and by the FCC for purposes of Federal Universal Support as defined in Exhibit 1 to the TRA's November 3, 1997 Order ("these services").
2. BellSouth will provide these services over its own facilities.
3. BellSouth will advertise the availability of these services and the charges for these services using media of general distribution.
4. BellSouth seeks Eligible Telecommunications Carrier status in its designated service areas in the State of Tennessee, including those areas set forth

in Section A3.6 of its General Subscriber Services Tariff. A copy of this section is attached hereto as Exhibit A.

5. BellSouth is in compliance with the requirements of 47 CFR §54.201 through 54.207 as set forth in Exhibit 2 to the TRA's November 3, 1997 Order.

6. BellSouth provides the requisite toll limitation services by allowing its customers to block toll calls. Although the FCC's May 8, 1997 Order on Universal Service defines the toll limitation service that Eligible Telecommunications Carriers must provide as toll blocking and toll control, the issue is presently under reconsideration at the FCC. In fact, in Paragraph 1 of its Further Notice of Proposed Rule Making in Docket 96-45, released September 4, 1997, the FCC defines "toll limitation services as either voluntary toll blocking, which allows customers to block toll calls, or toll control, which allows customers to limit in advance their toll usage per month or billing cycle." By allowing its customers to block toll calls, therefore, BellSouth satisfies the requirement that it provide toll limitation services.

7. In the alternative, if the TRA or the FCC determines that toll limitation services include both toll blocking and toll control, BellSouth respectfully petitions the TRA for a waiver of the toll control requirements until the development and implementation of industry-wide processes for the provision of such services. The provision of toll-control services requires "real time billing" of toll charges and is dependent upon timely receipt of information from toll providers. Accordingly, no service provider can provide toll control services absent industry-wide participation in developing and implementing equipment and processes to provide such services.

For the foregoing reasons, BellSouth respectfully requests that the TRA designate and certify BellSouth as an Eligible Telecommunications Carrier in its designated service area. BellSouth further requests that such designation be made by the TRA prior to January 1, 1998.

A3.6.2 Exceptions

1. County-Wide Calling

In addition to the local calling areas as described in A3.6.1, toll free calling on a (1+) or (0+) basis is provided between all local exchange service located within the same county. Toll charges will be eliminated on these calls; however, these calls will be rated and charged as local calls for customers who subscribe to a local usage based pricing option. On operator assisted calls, appropriate local operator service charges will apply. Intracounty toll calls that terminate to a Local Exchange Company that is not participating in County-Wide Calling will be rated at appropriate toll charges found in Section A18. of this Tariff.

This service will be provided to subscribers moving into designated fringe areas within 7 days of the inward move when the exchanges are controlled by South Central Bell - Tennessee. In other locations, a maximum of 30 days will be required to provide this service.

These additional local calling areas are not provided to the following:

- (DELETED)
- Sent paid Customer-Provided Public Telephone Service
- Outward Wide Area Telecommunications Service (WATS) and 800 Service
- Originating Cellular Service
- Quoted Charges
- Foreign Exchange
- Remote Call Forwarding
